ISSUE		REPORTER'S RECOMMENDATIONS	
CL1	Boghead	No modifications.	3
CL2	Carluke Town Centre	The Bubbles Factory LimitedModify the Carluke Settlement Plan in the local development plan, asproposed by the planning authority, by means of an adjustment to thetown centre boundary at Hamilton Street. The adjustment wouldincorporate the property known as The Bubbles Factory Limited within thetown centre.Kirkton StreetNo modifications.	5
CL3	Hillhead Farm, Carluke	No modifications.	8
CL4	Kilncadzow Road, Carluke	No modifications.	12
CL5	Mauldslie Road/Luggie Road, Carluke	No modifications.	17
CL6	Stonedyke Road, Carluke	No modifications.	21
CL7	Somerville Drive, Carnwath	No modifications.	25
CL8	Manse Road, Carstairs	No modifications.	29
CL9	Holm Road, Crossford	No modifications.	32
CL10	Carmaben Brae, Dolphinton	No modifications.	35
CL11	Angus Terrace, Douglas	No modifications.	39
CL12 Elvan	Dumfries Road & Station Road, foot	Site 1No modifications.Site 2Modify the local development plan by amending the settlement boundary south of Station Road as shown on the plan, "Proposed Residential Allocation", lodged by the Glengeith Trust in support of the representation.Former substation No modifications.	42
CL13	Kaimend & Kersewell	Kaimend Modify the local development plan by deleting the settlement boundary (proposal 2) and the potential housing site (proposal 40).	46

	Recommendations by issue number	
	Kersewell	
	No modifications.	
CL14 Carlisle Road, Kirkmuirhill	No modifications.	56
CL15 Birks Farm, Law	No modifications.	62
CL16 Bellefield Road, Lanark	Modify the local development plan by the deletion of development proposal 42, Bellefield Road, and the inclusion of the site within rural area under Special Landscape Area designation. The settlement boundary should follow the rear garden fences of the properties to the north side of Hardacres.	69
CL17 Hyndfordbridge	No modifications.	75
CL18 Hyndford Road/Braxfield Road & Albany Drive/Kirklands Road, Lanark	Modify the local development plan as follows: On the Lanark Settlement Map, insert a development proposal to extend the Albany Drive/Kirklands Road site in accordance with the provisions of the agreed 2013 Housing Land Audit (site CL5084). In effect, the development proposal would incorporate the former tennis court to the south-east of the 2012 housing land supply site shown on the settlement map. The site should be listed in Appendix 5, Proposals, under an appropriate reference number. The title should be "Albany Drive/Kirklands Road Extension" and the descriptive text should read "Potential extension to adjacent housing site to reflect land availability".	78
CL19 Jerviswood, Stanmore Road, Lanark	No modifications.	81
CL20 Jerviswood Mains, Lanark	No modifications.	86
CL21 Lanark Town Centre	No modifications.	90
CL22 Milton Farm, Lesmahagow	No modifications.	93
CL23 Lesmahagow Neighbourhood Centre	No modifications.	97
CL24 Wellburn Farm, Lesmahagow	No modifications.	99
CL25 Newbigging	 <u>The northern parcel of development proposal 45 (fronting Dunsyre</u> <u>Road)</u> No modification to the local development plan as shown in the settlement maps. 	103

	Recommendations by Issue Number	
	2. The two southern parcels of land of development proposal 45 (fronting	
	Medwin Terrace)	
	Modify the local development plan by the deletion of the two proposed	
	development sites and adjusting the settlement boundary to exclude the	
	land included within the sites. For clarification, the entry in Appendix 5	
	should be modified by the deletion of "part of pressure for change site".	
CL26 Ponfeigh	No modifications.	107
CL27 Huntlybank Farm, Ravenstruther	No modifications.	110
CL28 Biggar Road, Symington	No modifications.	113
CL29 Tanhill	No modifications.	116
CR1 Cambuslang General	No modifications.	118
CR2 Duchess Road, Rutherglen	No modifications.	125
CR3 East Greenlees Road, Cambuslang	No modifications.	130
CR4 Gilbertfield Farm, Cambuslang	No modifications.	133
CR5 Greenlees Road, Cambuslang	No modifications.	137
CR6 Hallside East, Cambuslang	No modifications.	141
CR7 Hamilton Road, Cambuslang & Harriet	No modifications.	143
Road, Rutherglen		143
CR8 Lightburn Road, Cambuslang	No modifications.	146
EK1 Mid Shawton Farm, Chapelton	No modifications.	149
EK2 Mounthilly Road, Chapelton	No modifications.	152
EK3 Hayhill Road, Jackton	No modifications.	156
EK4 Arrotshole/Mains, East Kilbride	No modifications.	159
EK5 Langlands Moss/Langlands West, East	No modifications.	163
Kilbride		105
EK6 Redwood Crescent, Peel Park, East	No modifications.	166
Kilbride		100
EK7 Peel Park North, Barbana Road,	Modify the local development plan as follows:	
Philipshill, East Kilbride	1. on the East Kilbride settlement map show the site that has been	168
	granted planning permission in principle (on 11 March 2014) as	100
	designated for residential rather than strategic economic investment use;	

and 2. adjust the settlement boundary on that settlement map to include this site within the East Kilbride boundary that would now follow Braehill Road immediately alongside this particular site. 171 EK8 Shields Road, East Kilbride No modifications. 177 EK9 St James Local Neighbourhood Centre, East Kilbride No modifications. 180 EK10 Redwood Drive, East Kilbride No modifications. 183 EK11 Former Rolls Royce Site, East Kilbride No modifications. 183 EK12 Stroud Road, East Kilbride No modifications. 184 EK13 Town Centre Extension at East No modifications. 191 Within the town Centre No modifications. 199 EK14 Glasgow Road, Nerston No modifications. 202 EK16 Kibbridestane Place, Strathaven No modifications. 210 EK18 Strathaven Town Mill, Strathaven No modifications. 212 EK19 Braehad Road, Thorntonhall No modifications. 212 EK19 Braehad Road, Thorntonhall No modifications. 223 EK20 Peel Road, Thorntonhall No modifications. 235 EK2		Recommendations by issue number

Uddingston		312
ST1 Vision and Spatial Strategy	Modify the local development plan by adjusting the second sentence of	
	paragraph 2.6, as follows (changes in italics):	
	"2.6This vision is ambitious but soundly based on the opportunities and	315
	the benefits offered by South Lanarkshire and its communities, including	
	the voluntary sector"	
ST2 Spatial Strategy	No modifications.	319
ST3 Climate Change	Modify the local development plan by adjusting the wording of Policy 2, so	327

Recommendations by Issue Number			
	that it reads, as follows (<i>changes in italics</i>):		
	"Policy 2 Climate Change		
	Proposals for new development must, where possible, seek to minimise		
	and mitigate against the effects of climate change by:		
	(iii) utilising renewable energy sources;		
	(iv) being designed to be as carbon neutral as possible;		
	(v) using low and zero carbon energy generating technologies that		
	reduce predicted carbon dioxide emissions to meet current building		
	standards within new buildings;		
	(vii) having no significant adverse impacts on the water and soils		
	environment, air quality, biodiversity (including Natura 2000 sites and		
	protected species) and green networks;		
	(viii) ensuring new development includes opportunities for active travel		
	routes and provisions for public transport, and for the creation and		
	enhancement of green networks;		
	(ix) providing electric vehicle recharging infrastructure in new		
	developments to encourage the adoption of low carbon vehicles;"		
ST4 Green Belt and Rural Area	Modify the local development plan by adding to the glossary of terms		
	(Appendix 2) the following definition (<i>changes in italics</i>):		
	"Glossary of terms	335	
	Specific locational requirement (Policy 3): the requirement for a		
	development to be at a particular location"		
ST5 Development Management & Place	Modify the local development plan by adjusting the wording of Policy 4,		
Making	and adding a new criterion, so that it reads, as follows (<i>changes in italics</i>):		
-	"Policy 4 Development Management and Place Making		
	All development proposals will require to take account of and be		
	integrated with the local context and built form. Development proposals	242	
	should have no significant adverse impacts on the local community and	342	
	where appropriate should include measures to enhance the environment		
	as well as address the 6 qualities of place making (as detailed in		
	Appendix 1 of Development Management, Place Making and Design		
	Supplementary Guidance).		

		Recommendations by issue Number	
		When assessing development proposals, the council will ensure that:	
		i. there is no significant adverse impact on adjacent buildings or	
		streetscape in terms of layout, scale, massing, design, external materials	
		or amenity;	
		ii. there is no significant adverse impact on landscape character, built	
		heritage, habitats or species including Natura 2000 sites, biodiversity and	
		protected species nor on amenity as a result of light, noise, odours, dust	
		or particulates;	
		iv. the proposal includes appropriate integrated and accessible	
		infrastructure, open space, green infrastructure and landscape	
		provision;	
		vi. the development does not result in any significant adverse impact	
		on the water environment as required by the Water Framework Directive	
		and related regulations and as appropriate, mitigation to minimise any	
		adverse effects is provided;	
		vii. there are no significant adverse effects on air quality (particularly in	
		and around Air Quality Management Areas), or on water or soil quality	
		and as appropriate, mitigation to minimise any adverse effects is	
		provided; and	
		viii. risks to new development from unstable land resulting from past	
		mining activities are fully assessed and, where necessary, mitigated prior	
		to development"	
ST6	Community Infrastructure Assessment	No modifications.	347
ST7	General Urban/Settlements	No modifications.	351
ST8	Employment	Modify the local development plan by adjusting the wording of paragraph	
		4.6, so that it reads (<i>changes in italics</i>):	
		"4.6 South Lanarkshire's location on the edge of the central belt and	
		major north-south and east-west transport links and the high quality	353
		historic and natural environment gives the area a large potential tourist	000
		market, especially for short breaks and day visitors. South Lanarkshire	
		also offers a wide variety of tourist and visitor attractions that contribute to	
		the local economy by providing employment and generating expenditure	

	Recommendations by issue number	
	on goods and services. In particular New Lanark, one of only <i>five</i> world heritage sites in Scotland, is a major attraction for visitors, <i>including</i>	
	international visitors."	
ST9 Strategic and Town Centres	Modify the local development plan by deleting the words "endeavour to" from Policy 8, so that it reads as follows:	
	"Policy 8 Strategic and Town Centres	356
	The council will undertake health checks for each of the strategic and	
	town centres and this work will be subject to stakeholder consultation"	
ST10 Neighbourhood Centres	No modifications.	358
ST11 New Retail/Commercial Proposals	Modify the local development plan by adjusting the wording of paragraph 4.17, so that it reads as follows (<i>changes in italics</i>): "4.17 There is continued interest in retail and commercial development. The retail development market is changing with a move towards a focus on convenience goods. As a consequence the format of proposed stores is reducing in size from a supermarket format (approximately 9000 square metres gross and above) to smaller convenience stores ranging from 5000 square metres to 1000 square metres gross. Proposals of this nature can often look to out of centre locations. <i>However, an alternative</i> <i>such as this will only be considered once strategic and other town centre</i> <i>locations, edge of strategic and edge of other town centre locations, and</i> <i>other commercial centre locations have been assessed through the</i> <i>sequential approach outlined in Policy 10.</i> Policy 10 also requires that developers must assess the impact of the proposal on the vitality and viability of the strategic and town centres and neighbourhood centres and demonstrate that there will be no unacceptable cumulative impacts"	360
ST12 Economic Development &	No modifications.	365
Regeneration		505
ST13 Housing Land	 Modify the local development plan as follows: 1. Delete the text of Policy 12 Housing Land and replace with: "There will be a minimum five year effective supply of private sector housing land at all times during the lifetime of the plan, based on the SDP housing requirement. This will be monitored and updated annually. The 	367

	Recommendations by Issue Number	
	Council will support development on the sites included in the Housing Land Audit and identified on the proposals map. If the Housing Land Audit identifies a shortfall in effective land the council will support development proposals which are effective for, in order of	
	 preference: Urban Capacity sites 	
	 Additional brownfield sites Sustainable greenfield sites 	
	Account will be taken of other local development plan policies and of any adverse impacts which would significantly and demonstrably outweigh the benefits of the proposal."	
	 Delete Figure 5.1. Delete "and illustrated in Figure 4" in paragraph 5.4. Delete "The methodology used is outlined in Figure 4 and" in 	
	paragraph 5.5.	
ST14 Affordable Housing & Housing Choice	No modifications.	385
ST15 Green Network and Greenspace	 Modify the local development plan, as follows (<i>changes in italics</i>) (see also Issue ST16): (1) adjust the wording of Policy 14, so that it reads: "Policy 14 Green Network and Greenspace Any development proposals should safeguard the local green network, identified on the proposals map, and identify opportunities for enhancement and/or extension which can contribute towards: (i) place making, (ii) mitigating greenhouse gases, (iii) supporting biodiversity, (iv) enhancing health and quality of life, (v) providing water management, including flood storage and buffer strips, 	388

	 (2) adjust paragraph 6.7 so that it reads (see also Issue ST16): "6.7 The extensive rural area of South Lanarkshire also offers opportunities to create new woodlands and forestry in line with <i>the Glasgow and Clyde Valley Forest and Woodland Strategy</i>. Similarly, through the council's participation in the Clyde and Avon Valley Landscape Partnership there will be an opportunity to take forward projects which will conserve and enhance the unique landscape and cultural heritage of the Clyde and Avon Valleys. <i>In addition, access rights are an important issue and, where relevant, they will be considered when</i> 	
ST16 Natural and Historic Environment	determining planning applications."Modify the local development plan as follows (changes in italics)(see alsoissue ST15):(1) adjust the wording of Policy 15, so that it reads:"Policy 15 Natural and Historic EnvironmentIn Category 1 areas(i) Development which could affect Special Protection Areas (SPAs) andSpecial Areas of Conservation (SACs) (Natura 2000 sites) will only bepermitted where an appropriate assessment of the proposal demonstratesthat it will not adversely affect the integrity of the site following theimplementation of any mitigation measures(ii) The council will seek to protect and preserve the outstandinguniversal value of New Lanark World Heritage Site. Developmentproposals affecting the world heritage site and its setting will be assessedagainst the detailed criteria set out in supplementary guidance.Development proposals within the buffer zone will be assessed for theirpotential impact on the site's outstanding universal value";(2) adjust Table 6.1 so that it reads as follows:Table 6.1 Hierarchy of Natural and Historic Environment DesignationsCategory 1Category 1Category 1Category 1Special Protection AreasWorld Heritage Site and its setting, and itsbuffer zone	399

	Recommendations by Issue Number			
	Category 2	Scheduled monuments and their setting		
	(National)			
	Category 3	Special Landscape Areas		
	(Local)	Core Paths, Core Water Routes (Paths) and		
		<i>water access/egress points,</i> and Rights of Way";		
	(3) add to the prop	osals map (environmental designations) core water		
	routes (paths) and v	routes (paths) and water access/egress points;		
	(4) add the followin	g definitions to the glossary (and adjust the numbering		
	of the subsequent d	lefinitions):		
		ic asset/place): The way in which the surroundings of		
		lace contribute to how it is experienced, understood		
		etting often extends beyond the immediate property		
	boundary into the b	•		
	69. World Heritage Site Buffer Zone: An area surrounding the nominate			
		complementary legal and/or customary restrictions		
		nd development to give an added layer of protection to		
		hould include the immediate setting of the nominated		
		views and other areas or attributes that are		
	(UNESCO 2012)"; a	nt as a support to the property and its protection. and		
	(5) adjust all map l	keys referring to the "New Lanark World Heritage Site		
	Setting" so that they	read "New Lanark World Heritage Site Buffer Zone."		
ST17 Travel and Transport		elopment plan, as follows (changes in italics):		
		ling of Policy 16, so that it reads:		
	"Policy 16 Travel an			
		proposals must consider and where appropriate		
		g impacts of traffic growth, particularly development	411	
		ave regard to the need to reduce the effects of		
	5	issions but at the same time support and facilitate		
		regeneration and sustainable growth";		
	(2) adjust paragrap	oh 7.1 so that it reads:		

	Recommendations by issue Number	
	"7.1 SPP highlights how the link between transport and land use has a	
	strong influence on sustainable economic growth. It also highlights that	
	the Local Transport Strategy (LTS) and SLLDP should be complementary	
	and ensure consistency between the appropriate authorities involved in	
	transportation. The SLLDP therefore has taken account of the LTS 2013-	
	2023 which, in turn, takes account of the Regional Transport Strategy	
	prepared by the Strathclyde Partnership for Transport";	
	(3) adjust paragraph 7.2, to include the deletion of the last 2 sentences,	
	so that it reads:	
	"7.2 Scottish Government's Infrastructure Investment Plan details that	
	the M8, M73, M74 Motorway Improvements project is programmed within	
	this plan period. This will specifically result in improvements to the Raith	
	interchange in South Lanarkshire, together with widening and junction	
	improvements along much of the M74 between Raith and Maryville"; and	
	(4) add a new paragraph 7.3 to read (and adjust the numbering of	
	subsequent paragraphs):	
	"7.3 Table 7.1 summarises new road schemes contained in the Local	
	Transport Strategy. Responsibility for the delivery of these will be by	
	South Lanarkshire, with the exception of Raith Interchange (Transport	
	Scotland) and Stonehouse (Private Developer)."	
ST18 Water Environment and Flooding	Modify the local development plan, as follows (<i>changes in italics</i>):	
	(1) adjust the wording of Policy 17, so that it reads:	
	"Policy 17 Water Environment and Flooding	
	Any development proposals which will have a significant adverse impact	
	on the water environment will not be permitted. This includes engineering	
	works such as culverting. In determining proposals consideration shall be	419
	given to water levels, flows, quality, features, flood risk and biodiversity	419
	within the water environment. The use of buffer and no development	
	zones will be introduced to protect the riparian zone. These measures	
	have been identified as having a key role to play in ensuring the	
	protection and improvement of the water environment in accordance with	
	the Water Framework Directive (WFD) and the underlying aims of the	

	Recommendations by Issue Number	
	River Basins Management Plans (RBMPs)	
	Sites where flood risk many be an issue (due to the breeching of	
	watercourses, surface water and run off, and impact of the proposal on	
	groundwater) shall be the subject of a local flood risk assessment. Any	
	development where the flood risk cannot be appropriately managed to	
	prevent a significant adverse increase in the risk of flooding either on the	
	site or elsewhere will not be permitted. The plan will take a precautionary	
	approach to managing flood risk by considering flooding from all sources	
	and working towards sustainable flood management";	
	(2) adjust the wording of paragraph 7.5, so that it reads:	
	"7.5 The water environment is made up of groundwater, surface water	
	and also includes the associated riparian zone. It also includes the	
	catchments of watercourses and wetland networks. Developments	
	should not have a significant adverse impact on any part of the water	
	environment. SEPA is the regulatory authority responsible for ensuring	
	that water quantity and quality is protected and maintained. The water	
	environment has an important role to play in biodiversity and supports a	
	variety of wildlife, including protected species, birds, aquatic species and	
	biota. It also supports recreational and leisure uses, and tourism"; and	
	(3) adjust the wording of paragraph 7.6, so that it reads:	
	"7.6 Under the Water Framework Directive (WFD), South Lanarkshire	
	Council is identified as a responsible authority for river basin management	
	planning. A key factor in the SLLDP will be protecting and enhancing the	
	water environment and preventing development from taking place within	
	the floodplain or where it will have an impact on its function"	
ST19 Waste	Modify the local development plan, as follows (changes in italics) (see	
	also Issue 20):	
	(1) delete Criterion (ii) from Policy 18;	
	(2) adjust the wording of Policy 18 (see also Issue 20), so that it reads:	427
	"Policy 18 Waste	
	Planning applications for waste management operations shall be	
	assessed against the following criteria:	

 Recommendations by issue Number	
i. the contribution a proposal makes towards delivering both the national	
annual waste management capacity required to meet the targets set out	
in the Zero Waste Plan, and an integrated and adequate network of waste	
management facilities	
(Note: the capacity required is set out in the waste capacity tables	
referred to in the key documents listed at page 42 of the 2014 SPP);	
<i>ii.</i> the impact on local communities and other sensitive land uses is	
considered acceptable;	
<i>iii.</i> the development will have no significant adverse impact on any	
natural or built heritage features including the green belt, agricultural land,	
landscape and landscape character, habitats and species (including	
Natura 2000 sites and protected species);	
iv. the development will have no significant adverse impact in terms of	
local environmental effects including noise, dust, vibration, odour, air	
quality, attraction of vermin or birds, litter, potential for the pollution of	
surface water or ground water contamination;	
In general waste management facilities, recycling centres and transfer	
stations will be directed to employment land (including industrial, and	
storage and distribution sites) and/or existing waste management sites,	
unless other material considerations indicate otherwise.	
Any applications for energy from waste facilities shall be located where	
there are opportunities to connect with heat/power grids and users;"	
(3) adjust paragraph 7.8 (see also Issue 20), so that it reads:	
"7.8 The Scottish Government's Zero Waste Plan (June 2010) sets out a	
vision for reducing waste and treating it as a resource. In particular,	
before considering waste disposal, authorities must identify ways of	
reducing, reusing, recycling, and recovering waste. This includes	
recycling demolition material as secondary aggregates, reusing "green"	
waste and converting it to compost and recycling as much household	
waste as possible through the introduction of glass, paper and plastic bins	
for households (source segregation). Waste can be used to recover	
energy, which has an important role to play in meeting renewable energy	
i se se se pag in most and an most and se se pag in most and se onor able on orgy	

	Recommendations by Issue Number	
	targets. However, this should not be at the expense of measures to reduce, reuse and recycle waste. As a part of the improved management of waste under the Zero Waste Plan, there will be a reduced reliance on landfill." (4) add the following new paragraph immediately after paragraph 7.10: "The 2014 SPP states that the planning system should support the provision of a network of infrastructure to allow Scotland's waste and secondary resources to be managed in one of the nearest appropriate installations, by means of the most appropriate methods and technologies. It also explains: that while a significant shortfall of waste management infrastructure exists, emphasis should be placed on need over proximity; that the achievement of a sustainable strategy may involve waste crossing planning boundaries; that, as the national network of installations becomes more fully developed, there will be scope for giving greater weight to proximity; that regard should be had to the annual update of required capacity for waste mindful of the need to achieve the all-Scotland operational capacity; and that this should not be regarded as a cap. All proposals for waste management facilities should show how they contribute towards delivering both the national annual waste management capacity required and an adequate and integrated network of waste management facilities."	
ST20 Wind Energy	Modify the local development plan, as follows (<i>changes in italics</i>): (1) delete Policy 19, including the reference to the planning authority's renewable energy fund, and insert a new Policy 19 to read: <i>"Policy 19 Renewable Energy</i> <i>Applications for renewable energy infrastructure developments will be</i> <i>supported subject to an assessment against the principles set out in the</i> <i>2014 SPP, in particular, the considerations set out at paragraph 169 and</i> <i>additionally, for onshore wind developments, the terms of Table 1: Spatial</i> <i>Frameworks.</i> <i>The council will produce statutory supplementary guidance which accords</i> <i>with the 2014 SPP, and which contains the spatial framework for onshore</i>	439

 wind energy, and sets policy considerations against which all proposals for renewable energy infrastructure developments will be assessed. Development proposals must also accord with other relevant policies and proposals in the development plan and with supplementary guidance"; (2) adjust paragraph 7.12, so that it reads: "7.12 Scottish Government policy seeks to generate the equivalent of 100% of Scotland's gross annual electricity consumption, and meet 30% of overall energy demand and 11% of heat demand, from renewable sources by 2020. The 2014 SPP requires planning authorities to support the development of a diverse range of renewable energy technologies at appropriate locations, and requires that an area's full potential for electricity and heat from renewable sources is achieved in line with national climate change targets, giving due regard to relevant environmental, community, and cumulative impact considerations"; (3) retain paragraph 7.13, but delete paragraph 7.14, and insert a new paragraph to read: "7.14 The council's latest supplementary guidance on wind energy was published and consulted on in May 2013. It is based on a spatial framework and landscape study prepared by the council in 2010, and updated in 2013. The supplementary guidance followed the structure of the spatial framework for onshore wind farms set out in the now superseded 2010 SPP. The 2014 SPP sets out a different approach to a spatial framework based on 3 groups – (1) areas where wind farms may be appropriate in some circumstances, and (3) areas beyond groups (1) and (2) where wind farms are likely to be acceptable, subject to detailed consideration against identified policy criteria. The areas where 		Recommendations by Issue Number
Development proposals must also accord with other relevant policies and proposals in the development plan and with supplementary guidance"; (2) adjust paragraph 7.12, so that it reads: "7.12 Scottish Government policy seeks to generate the equivalent of 100% of Scotland's gross annual electricity consumption, and meet 30% of overall energy demand and 11% of heat demand, from renewable sources by 2020. The 2014 SPP requires planning authorities to support the development of a diverse range of renewable energy technologies at appropriate locations, and requires that an area's full potential for electricity and heat from renewable sources is achieved in line with national climate change targets, giving due regard to relevant environmental, community, and cumulative impact considerations"; (3) retain paragraph 7.13, but delete paragraph 7.14, and insert a new paragraph to read: "7.14 The council's latest supplementary guidance on wind energy was published and consulted on in May 2013. It is based on a spatial framework and landscape study prepared by the council in 2010, and updated in 2013. The supplementary guidance followed the structure of the spatial framework for onshore wind farms set out in the now superseded 2010 SPP. The 2014 SPP sets out a different approach to a spatial framework based on 3 groups – (1) areas where wind farms will not be acceptable, (2) areas of significant protection where wind farms may be appropriate in some circumstances, and (3) areas beyond groups (1) and (2) where wind farms are likely to be acceptable, subject to		wind energy, and sets policy considerations against which all proposals
 proposals in the development plan and with supplementary guidance"; (2) adjust paragraph 7.12, so that it reads: "7.12 Scottish Government policy seeks to generate the equivalent of 100% of Scotland's gross annual electricity consumption, and meet 30% of overall energy demand and 11% of heat demand, from renewable sources by 2020. The 2014 SPP requires planning authorities to support the development of a diverse range of renewable energy technologies at appropriate locations, and requires that an area's full potential for electricity and heat from renewable sources is achieved in line with national climate change targets, giving due regard to relevant environmental, community, and cumulative impact considerations"; (3) retain paragraph 7.13, but delete paragraph 7.14, and insert a new paragraph to read: "7.14 The council's latest supplementary guidance on wind energy was published and consulted on in May 2013. It is based on a spatial framework and landscape study prepared by the council in 2010, and updated in 2013. The supplementary guidance followed the structure of the spatial framework for onshore wind farms set out in the now superseded 2010 SPP. The 2014 SPP sets out a different approach to a spatial not be acceptable, (2) areas of significant protection where wind farms will not be acceptable, (2) areas of significant protection where wind farms will not be acceptable, (2) areas of significant protection where wind farms will not be acceptable, (2) areas of significant protection where wind farms will not be acceptable, (2) areas of significant protection where wind farms will not be acceptable, (2) areas of significant protection where wind farms will not be acceptable, (2) areas of significant protection where wind farms will not be acceptable, (2) areas of significant protection where wind farms will not be acceptable, (2) areas of significant protection where wind farms 	i i	for renewable energy infrastructure developments will be assessed.
 (2) adjust paragraph 7.12, so that it reads: "7.12 Scottish Government policy seeks to generate the equivalent of 100% of Scotland's gross annual electricity consumption, and meet 30% of overall energy demand and 11% of heat demand, from renewable sources by 2020. The 2014 SPP requires planning authorities to support the development of a diverse range of renewable energy technologies at appropriate locations, and requires that an area's full potential for electricity and heat from renewable sources is achieved in line with national climate change targets, giving due regard to relevant environmental, community, and cumulative impact considerations"; (3) retain paragraph 7.13, but delete paragraph 7.14, and insert a new paragraph to read: "7.14 The council's latest supplementary guidance on wind energy was published and consulted on in May 2013. It is based on a spatial framework and landscape study prepared by the council in 2010, and updated in 2013. The supplementary guidance followed the structure of the spatial framework for onshore wind farms set out in the now superseded 2010 SPP. The 2014 SPP sets out a different approach to a spatial framework for onshore wind farms set out in the now superseded 2010 SPP. The 2014 SPP sets out a different approach to a spatial framework for onshore wind farms set out in the now superseded 2010 SPP. The 2014 SPP sets out a different approach to a spatial framework for onshore wind farms set out in the now superseded 2010 SPP. The 2014 SPP sets out a different approach to a spatial framework based on 3 groups – (1) areas where wind farms will not be acceptable, (2) areas of significant protection where wind farms may be appropriate in some circumstances, and (3) areas beyond groups (1) and (2) where wind farms are likely to be acceptable, subject to 		Development proposals must also accord with other relevant policies and
 "7.12 Scottish Government policy seeks to generate the equivalent of 100% of Scotland's gross annual electricity consumption, and meet 30% of overall energy demand and 11% of heat demand, from renewable sources by 2020. not be acceptable, (2) areas of significant protection where wind farms may be appropriate in some circumstances, and (3) areas beyond groups (1) and (2) where wind farms are likely to be acceptable, subject to		
may be appropriate in some circumstances, and (3) areas beyond groups (1) and (2) where wind farms are likely to be acceptable, subject to		o 1 (7)
(1) and (2) where wind farms are likely to be acceptable, subject to		
detailed consideration against identified policy criteria. The areas where		
cumulative impact limits further development, the area of significant		
protection, and the green belt are no longer to be included in the spatial		
framework, but the the Muirkirk and North Lowther Special Protection		
Area, the New Lanark World Heritage Site, and community separation		Area, the New Lanark World Heritage Site, and community separation
distances are to be included as group (2) areas, along with other national		distances are to be included as group (2) areas, along with other national

Keconmenda	
	nal designations, and nationally important mapped
	interests. The 2014 SPP indicates that the spatial
framework is t	o be complemented by a more detailed and exacting
development r	management process where the merits of an individual
proposal will b	e carefully considered against the full range of
environmental	, community, and cumulative impacts. Taking into account
the approach of	of the 2014 SPP, the supplementary guidance will cover not
just onshore w	vind developments, but all renewable energy infrastructure
developments	n,
(4) delete para	agraphs 7.15, 7.16, and 7.17;
(5) delete para	graph 7.18, and insert a new paragraph to read:
"7.15 Policy 1	9 Renewable Energy sets out the overall approach to the
assessment of	f proposed renewable energy infrastructure developments.
It also deals w	ith the preparation of updated supplementary guidance";
(6) adjust para	agraph 7.19, so that it reads:
"7.16 The co	uncil has a well established and approved mechanism for
the collection a	and distribution of community benefit related to renewable
energy develo	pment. The Council's Renewable Energy Fund (REF)
currently admi	nisters community benefit schemes for a number of wind
farms within S	outh Lanarkshire. The council will encourage operators of
wind turbines/	wind farms and other renewable energy infrastructure
developments	within South Lanarkshire to contribute to the Council's REF
or another sim	ilar mechanism as appropriate. Contributions are based
upon a minimu	Im £2500 per megawatt based on installed capacity, as
approved by the	ne Council on 1 st December 2010. The REF will be
reviewed as a	opropriate during the life of the LDP, with a view to
	w grant assistance could facilitate employment and
investment in l	ocal communities. In accordance with Scottish
Government g	uidance, such contributions are not treated as material
considerations	in the assessment and determination of planning
applications. I	Further guidance on contributions for renewable energy
development is	s set out in supplementary guidance";

	Recommendations by Issue Number	
	(7) delete Figure 7.1 – SDP broad areas of search and LDP broad areas	
	of search; and	
	(8) delete from the proposals map (strategy) the designations for broad	
	area of search for wind farms, areas where cumulative impact limits	
	further development of wind farms, and Southern Upland Foothills and	
	Pentland Hills area of significant protection for wind farms.	
ST21 Appendix 1	Modify the local development plan as follows (<i>changes in italics</i>):	
	(1) add to the third column of the table, under climate change,	
	development management, housing land, green network/greenspace,	
	water environment and flooding, and renewable energy, references and	
	links to the following items of guidance produced by Scottish Natural	
	Heritage:	
	"- Climate Change - http://www.snh.gov.uk/climate-change/

	(2) add to the third column of the table, under travel and transport, a	
	reference and link to the regional transport strategy prepared by the	
	Strathclyde Partnership for Transport:	
	"- Regional Transport Strategy -	
	http://www.spt.co.uk/corporate/about/strategy/regional-transport-strategy/"	

Report to South Lanarkshire Council – 20 October 2014 Recommendations by Issue Number ST22 Appendix 2 Modify the local development plan by adjusting the terms of the following definitions in the glossary (changes in italics): "2. Ancient Semi-Natural Woodlands: Categories 1a and 2a on the 'Inventory of ancient, semi-natural and long-established woodlands'. Interpreted as semi-natural woodland from maps of 1750 (1a) or 1860 (2a) and continuously wooded to the present day. If planted with nonnative species during the 20th century, they are referred to as Plantations on Ancient Woodland Sites (PAWS). Datasets can be downloaded from https://gateway.snh.gov/natural-species/index.jsp 6. Core Path Network: Core Paths are the basic framework of key routes that provide for the main needs of users. They can comprise many different kinds of path. cater for all types of user and provide links to the wider path network and countryside. Core paths are a new innovation under the Scottish Access legislation. Each access authority (local authority and national park authority) has a duty to draw up a plan of core paths in their area, after consulting with local communities, land 468 managers and path users. 28. Landscape Character Assessment: Landscape Character Assessment provides a classification and description of the landscape. The process identifies distinct areas of consistent and recognisable landscape character. The South Lanarkshire Landscape Character Assessment includes guidelines for assessing the sensitivity of different landscape character types to development. 38. National Nature Reserves: National Nature Reserves are areas of land set aside for nature, where the main purpose of management is the conservation of habitats and species of national and international significance. They are declared by Scottish Natural Heritage. 41. Other Long- Established Woodlands or Woodlands of High Conservation Value: Categories 1b, 2b, and 3 in the 'Inventory of ancient, semi-natural and long-established woodlands'. Long-established woodland is interpreted as plantation from maps of 1750 (1b) or 1860 (2b) and continuously wooded since. Category 3 sites are shown as

Proposed South Lanarkshire Development Plan Examination

	unwooded on the 1 st edition maps but as woodland on the Roy maps of 1750. Such sites have, at most, had only a short break in continuity of woodland cover and may still retain features of Ancient Woodland. Datasets can be downloaded from <u>https://gateway.snh.gov.uk/natural-</u> <u>spaces/index.jsp</u> 42. Peatland: Land that consists of raised bogs and/or blanket bogs. 56. Sites of Special Scientific Interest (SSSIs): SSSIs represent the best of Scotland's natural heritage. They are 'special' for their plants, animals or habitats, their rocks or landforms, or a combination of these. SSSIs are designated by Scottish Natural Heritage under the provisions of the Nature Conservation Act (Scotland) Act 2004."	
ST23 Appendix 3	 Modify the local development plan as follows (<i>changes in italics</i>): (1) add to the third column of the table, under Larkhall Community Growth Area, the following requirement: " Scottish Water will require to invest in the waste water treatment works to meet the growth demand, should the full community growth allocation be built"; (2) add to the third column of the table, under all development framework sites and residential masterplan sites, the following requirement (except where it is already included): " Ensure green network provision"; (3) add to the third column of the table, under all community growth areas, the following requirement: " Upgrade or contributions towards Trunk Road improvements as required"; and (4) adjust the first bullet point of the third column of the table, under Carluke Community Growth Area, so that it reads: "Definition of new landscape measures to consolidate new green belt edges, provide a buffer for the Clyde Valley Woodlands Special Area of Conservation, and establish green networks within the development" 	472
ST24 Appendix 7	Modify the local development plan as follows (<i>changes in italics</i>): (1) add to the list of legislation the following Act:	476

Recommendations by Issue Number		
	 " Forestry Act 1967"; and (2) add to the list of National Policy and Guidance the following strategy and policy: " The Scottish Forestry Strategy 2006 - The Scottish Government's Policy on the Control of Woodland Removal 2009" 	
ST25 Mapping	Modify the local development plan by adding to the settlement map for New Lanark 2 scheduled ancient monuments - Museum Stair at Double Row, and the site of Mill No. Four.	478
ST26 Technical Wording Amendments	 Modify the local development plan as follows (<i>changes in italics</i>): (1) adjust the last sentence of that part of paragraph 2.19 dealing with the Habitats Regulations Appraisal so that it reads: "Habitats Regulations Appraisal:The HRA concludes that there will be no adverse effect on the integrity of any Natura 2000 site as a result of the SLLDP"; and (2) adjust table 4.5 (out of centre retail/commercial locations) by adding a further column headed "Use" and state whether each of the centres identified is in retail or commercial use. 	482
