Summary of progress

HM Inspection Report – Gilmourton Primary School

Gilmourton Primary School was inspected in April 2010 as part of the inspection programme by HM Inspectorate of Education (HMIE).

As a result of the good performance, the strong record of improvement and the very effective leadership of the school, HM Inspectors agreed to make no further report in connection with this inspection. An action plan was prepared to address recommendations made by HM Inspectors and South Lanarkshire Council was asked to report on the progress of this plan.

The following provides a summary of the progress made in relation to each recommendation:

**Improve aspects of learning and teaching and extend opportunities for children to take more responsibility for their learning.**
- The educational experience for all children has improved through extending and embedding a range of learning and teaching approaches in the classroom. It is evident through the teachers planning that children are now given frequent opportunities to take responsibility for their learning.

**Develop the curriculum and use this information when planning for children’s learning.**
- Aspects of the curriculum have been reviewed by the staff and pupils and amended to make the curriculum relevant to their lives. To ensure progression in learning, the school has participated in learning community activities for example mathematics transition.

**Improve monitoring and self-evaluation and involve all staff in this process.**
- Staff have participated in moderation exercises with the small schools in the learning community as a means of building teacher confidence.

Issued to parents – 14 June 2011
