Our aim is to provide a home for you within a friendly and homely environment where care is delivered by a highly motivated and trained team offering personalised care and support to meet your individual assessed needs.
What is a short respite break?

Respite is regular planned short breaks provided in some of our care homes. The aim is to provide a break for you and the person(s) who care(s) for you.

What is long term care?

This can begin with a four week assessment period giving you the opportunity to experience Meldrum Gardens and the care provided there. This can help you in reaching any decisions about your long term future.

At the end of your four week assessment a meeting called a ‘review’ will take place where your agreed care needs and your views of the service will be discussed with you. You can bring anyone you wish to your review meeting.

If the care home meets your needs and a suitable room is available you will be offered a users agreement, “contract”, which sets out the terms and conditions of your residence which you have been offered. This covers things like health and safety and staffing arrangements. Staff will discuss the document with you in full. If the care home is not suitable then other alternatives will be looked at including a return to your own home, if you have decided that a care home is not for you. You should keep your own home until you make your final decision.

Staff

Meldrum Gardens is staffed 24 hours a day. Staff are employed through a robust recruitment procedure which includes a thorough background check. All care staff are registered with the Scottish Social Services Council which is the professional registering body for social care staff and they ensure that the staff have the appropriate qualifications and skills to work with our residents.

The staff at Meldrum Gardens work as a team to ensure that the services and care on offer are of a high standard. An ongoing programme of staff training and development is in place to ensure up to date care and knowledge and best practice.

Nutrition

The home offers a nutritional diet with a varied menu. There are opportunities for you to prepare hot and cold snacks, and drinks (hot and cold) are available for your use throughout the day /night. Meal times can be flexible. You can eat your meals in your own room if you choose to do so.

If you need a special diet for medical, cultural or religious reasons, this can be arranged. The cook will discuss the menu and your personal preferences on a regular basis.
Medication and health

Meldrum Gardens offers an enhanced GP service.

It may be possible for you to retain your own General Practitioner if they agree to this request. If this request is declined then staff will help you to register as quickly as possible with the named GP Practice.

You can retain your present dentist however if this is not possible the unit will arrange for dental and oral hygiene input for you.

If you can manage your own medication then you will be encouraged to continue with this. If you need help with your medication then staff will do this. All staff involved in the administration of medication have been instructed in the homes medication system on how to administer medication safely.

If you need an outpatients appointment at your local hospital or domiciliary visits to the home for physiotherapy etc this will be arranged for you.

Hearing your voice being involved in decisions affecting you

You will be invited to attend meetings on a regular basis to discuss the day to day running of the care home.

Your views and suggestions enable the staff group where possible to continually improve the quality of the service you receive.

You will be fully involved in your review meetings to discuss your personal views and individual care needs.

You and your family/representative will be consulted in decisions regarding our facilities and services. Regular meetings take place which are minuted and available to view on request.

Your contributions will always be welcomed.

Social, cultural and religious beliefs

It is important that your social, cultural and religious beliefs or faith are known and respected by staff and that you are given the opportunity and support you may need to practice your beliefs. You may wish to continue with your present arrangements enabling attendance at your chosen place of worship. Holy Communion Service is held weekly and Church Service held monthly in Meldrum Gardens. All faiths and spiritual advisers welcome.
Health and safety

As part of our fire regulations all visitors must sign in and out of the home using the visitor’s book. Staff will ensure that you and your visitors are familiar with fire evacuation procedures which are displayed throughout the home.

The fire protection system together with fire equipment is regularly checked and maintained. The home carries out regular fire drills. There is a sprinkler system in place and emergency lighting in the event of a fire.

Residents can smoke in their own apartments. There is no designated smoke room.

The home has a controlled door entry system in place.

Copies of health and safety, and environmental health reports on Meldrum Gardens are available to read on request. If you have any concerns or comments then let a member of staff know.

There is a call system in all areas of the home so that you can get assistance at any time. You will be advised on how to use this system.

You will be offered a key to your own room and you will have a lockable space within your room for safety of your belongings. We would recommend consideration be given to private insurance that would cover your personal belongings and valuables. You and your family can arrange to do this privately. (You will require to pay for this insurance cover).

Heating will be kept at a warm comfortable temperature. If your room temperature is not to your satisfaction, then staff will help you to alter your room temperature.

All electrical equipment provided in the care home will be subject to periodic inspections by a competent person.

You may bring your own furniture and soft furnishings into your own room as long as they comply with current fire safety regulations.
